Productivity improving technologies - Wikipedia Productivity improving technologies date back to antiquity, with rather slow progress until the late Middle Ages. Important examples of early to medieval European technology include the water wheel, the horse collar, the spinning wheel, the three-field system (after 1500 the four-field system—see Crop rotation) and the blast furnace. All of these technologies had been in use in China, some ... Browse All Topics | The National Academies Press Browse by Topic . Find books in subject areas that are of interest to you.
