This paper develops a new approach for a political support system related to the integration of immigrants using e-governance. Through the Internet the participation of immigrants is possible in both societies, the original and the new one, and at the three different levels: local, ... Capitalism - Wikipedia Capitalism is an economic system based on the private ownership of the means of production and their operation for profit. Characteristics central to capitalism include private property, capital accumulation, wage labor, voluntary exchange, a price system, and competitive markets. In a capitalist market economy, decision-making and investment are determined by every owner of wealth, property ... Resolve a DOI Name Type or paste a DOI name into the text box. Click Go. Your browser will take you to a Web page (URL) associated with that DOI name. Send questions or comments to doi ... Moral decision-making and moral development: Toward an ... "Central to any discussion of developmental issues is the consideration of 'what develops'" (Crick & Dodge, 1994, p. 80). Table 1 displays the main component processes and factors suggested by various theories and perspectives to be involved in real-time moral decision-making or necessary for moral development. These components are grouped into broad categories of cognitive, affective ... Glossary of research economics - econterms Box and Cox (1964) developed the transformation. Estimation of any Box-Cox parameters is by maximum likelihood. Box and Cox (1964) offered an example in which the data had the form of survival times but the underlying biological structure was of hazard rates, and the transformation identified this.
