Climate change denial - Wikipedia STUDY!!! - APES - MS. RAGO'S CLASS WEBSITE Environmental Science is the study of the way humans interact with their environment, both living and non-living components. The goal of this class is to raise awareness on the global and local environmental issues we face today and the interdisciplinary studies involved in solving issues. Sustainable supply chains: An introduction - ScienceDirect 1.. IntroductionThe interaction between sustainability and supply chains is the critical next step from recent examinations of operations and the environment (Corbett and Kleindorfer, 2003) and operations and sustainability (Kleindorfer et al., 2005). While important contributions have been made in relation to environmental operations and policy, strategy, finance, product design, supplier ...
