Frontiers in Computing Technologies for Manufacturing Applications presents an overview of the state-of-the-art intelligent computing in manufacturing. Modeling, data processing, algorithms and computational analysis of difficult problems found in advanced manufacturing are discussed. Frontiers in Mechanical Engineering | Computer-Aided and ... Computer-Aided and Digital Manufacturing Technologies (CADMT) is devoted to the promotion of research through the integration of engineering sciences, manufacturing sciences, mathematical sciences, and also biological sciences. At present, innovation in products is realized through novel design and advanced manufacturing technologies. Frontiers in Mechanical Engineering Scope & Mission. Frontiers in Mechanical Engineering publishes rigorously peer-reviewed research with sections ranging from Computer-aided Digital Manufacturing Technologies to Mechatronics. Field Chief Editor Juergen Brugger at the École Polytechnique Fédérale de Lausanne is supported by an outstanding Editorial Board of international experts.
